

CIENEGA WATERSHED PARTNERSHIP
State of the Cienega Watershed 2018
March 6, 2018 | 9:00am – 12:00pm
Room S230, ENR2 Building, University of Arizona

Objectives:

- Present the updated State of the Cienega Watershed assessment
- Discuss appropriate management actions
- Identify how to further improve the assessment process

AGENDA

8:30a Agenda Overview – *Tahnee Robertson, Southwest Decision Resources/CWP*
Welcome – *Tom Meixner, CWP, and Chris Scott, Udall Center*

State of the Watershed Presentation

- Context, process – *Larry Fisher, UA School of Natural Resources & the Environment/CWP*
- Indicators, data, trends – *Adriana Zuñiga-Teran, UA Udall Center*
- Q and A – clarification, key points for discussion

9:45 BREAK

10:00 Working Group Discussions

Three breakout groups: Climate/Water/Riparian, Ecological, Socio-cultural

1. What do the trends tell us about the State of the Cienega Watershed – in terms of concerns and priorities for action? Please suggest appropriate management actions to address key trends identified in the watershed assessment.
2. Which elements of the data are strongest in representing conditions and changes in the watershed? What can be done to improve the analysis and presentation to make it more effective as an assessment, planning, and monitoring tool?

11:15 Report Out/Sharing and Discussion

11:45 Summary, Next Steps, Evaluation and Closing Remarks

12:00p Adjourn
